Warranty & Support	Direct support from the manufacturer, 2-year warranty	Standard limited warranty

Why Choose the LLIP1940E?

Why Choose the LLIP1940E?

- Tighter beam (6 deg) gives more punch for mid-air FX while still offering a smooth wide wash.
- Lower fan noise, ideal for quiet environments like theaters or corporate events.
- Pixel control matches R2X, but at a better value.
- Backed directly by Lumuh Lighting, ensuring responsive aftercare and support.
- More compact and lighter, making it easier to rig and tour with.

If you're looking for a fixture that delivers the same punch and control as the R2X, but with lower noise, easier handling, and a more budget-friendly price point, the LLIP1940E is the smarter choice.
